## ABOUT THE STATE.

Items of Interest Gleaned from Our Exchanges.

The Bristol village reservoir is completed. It required 146,500 pounds of concrete.

Miss Florence Guyette, the Burlington girl who was burned about the arm Wednesday afternoon, was taken to the Mary Fletcher hospital on Friday. She is still in a critical condition.

The present population of Lakeside, a part of Burlington, is about 600, an increase of over 100 having lately been made in that part of the city. The people are suffering for lack of proper living accommodations. Every year about this time a large number of French Canadians come to Burlington to work in the City cotton mill. This year the mill has a great deal of work on hand and lately they granted a 10 per cent increase in wages, which is an extra inducement for this transient class.

Since 1857 there have been 18,463 births and 11,605 deaths in the city of Burlington. Since 1814 there have been 5,891 marriages. From 1857 to 1869 the number of births was much larger than the number of deaths, there being 2,660 children born, while 1,440 persons died. The number of marriages amounted to 1,908. From 1869 to 1877 the number of deaths showed a marked decrease as compared with the number of births, there being 2,320 births and only 640 deaths, while there were 750 marriages. In 1903 there were 440 births and 400 deaths. In 1904 there were 540 births and 385 deaths.

The Vermont Printing Co. of Brattleboro, owning the Windham County Reformer, published in Brattleboro, and the Vermont Tribune, published in Ludlow, has sold a half interest in these two papers and the mechanical plants connected therewith to Howard C. Rice and George E. Mosher of Brattleboro. Mr. Rice and Mr. Mosher have conducted the job printing plant connected with the Reformer, and Mr. Rice has been local editor. Under the new arrangement Mr. Rice will be editor, E. H. Crane, formerly editor, will be bookkeeper and advertising manager, and Mr. Mosher will be superintendent of the mechanical department. There will be no change in the management of the Vermont Tribune. The capital stock of the Vermont Printing Co. is \$20,000. The company will install a new four-color cylinder press and an additional linotype machine in the Reformer job office, and will print the Holstein-Friesian Register, edited by Frederick L. Houghton, after January 1, 1906.

## INDEPENDENT TELEPHONES.

Convention of Vermont and New Hampshire Companies at Woodsville last Thursday.

A convention of the independent (non-Bell) telephone companies of Vermont and New Hampshire was held at Hotel Wentworth, Woodsville, N. H., last Thursday. There was a large attendance present from all parts of both states. The object of this convention was to form an independent telephone association of all companies in Vermont and New Hampshire, the aim and purpose of the association being to cement together in a firmer union all independent telephone interests in this section for the purpose of promoting uniformity of operation, maintenance and construction; to protect and defend all independent telephone interests by moral efforts, co-operation and such other available means as may be deemed advisable; to prevent the enactment of hostile legislation and any and all other purposes that are deemed to be the best interests of the association and of the independent telephone movement and the people.

An organization was formed and the following officers elected: H. W. Buchanan, Barton Landing, president; C. D. Eastman, Woodsville, N. H., vice president; G. W. Buzzell, St. Johnsbury, Vt., secretary and treasurer. There were twenty vice presidents elected to serve as committees of arrangements. The association will be called the "Vermont and New Hampshire Independent Telephone Association" and they invite every independent telephone man and company to co-operate with them in this good work.

The National Inter-State Independent Telephone association emblem, adopted at the national convention held in Chicago, last June, was adopted. These emblems are in the form of a shield seventeen and eighteen inches across; colors, red, white and blue, and read "Independent Local and Long Distance Telephone" and are to be placed at all independent offices and toll stations. The independent movement will have made a great advance when this emblem is displayed at every pay station in the country and the significance of it is understood by the telephone using people. Large lots of the signs will be ordered at once. Other meetings are arranged for the near future.

This organizing of the independent telephone companies fills a long felt want. Nearly all the southern, middle and western states have organizations of this kind of their own, and there is a national association made up of all these states. The National Independent Telephone Association's last meeting was held in Chicago last June and there was represented at that convention more than three millions of the independent telephones from all parts of the United States, and we are informed that this is about twice as many independent telephones as there are of all others in the country. It is expected that the time is not far off when the independent companies will have trunk lines from one end of the country to the other—St. Johnsbury Republican of Nov. 8.

The Production of Petroleum in 1904. Of petroleum and the drilling of oil wells there seems to be no end in this country. The production of last year was greater than that of any previous year. The total output of crude petroleum in the United States in 1904 was 117,063,421 barrels. The total value of all the petroleum marketed in the United States in 1904 was \$101,170,466. The gain over the production of 1903 was 16,602,084 barrels in quantity and \$6,476,416 in value.

## THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## A NEW MONEY ORDER.

Designed to Guard Against Mistakes and Irregularities.

The United States government has introduced a new money order system, which is a great improvement over the old. The department has had considerable trouble with the old system, because a gang of money order sharks have traveled through the country buying up small money orders which they would increase and present to merchants during the closed hours of the postoffice. The government was losing large sums of money yearly by this method and determined to stop it. There is a strip down the side of the order, which when it is torn off, indicates that the original sum of the money order does not exceed a certain amount, so that the amount cannot in any way be increased. The name of the sender and the amount is placed on the face of the order. A report sent to the office where the order is to be received gives the clerk a chance to identify the order before it is presented and to make sure he can ask the name of the sender. If he is then uncertain in the identification of the party presenting the order, he can require that he be identified. Some government officials do not like the new system, but those that are truly familiar with the business are very much pleased with it.

F. H. Gillingham, proprietor of a large general store at Woodstock, Vt., makes special effort to cater to the farmers' trade. That he is successful, in one line at least, is apparent from the following letter. Read what he says about Poultry Food: "Page's Perfect Poultry Food has been the place of all other food in this section. Where formerly we carried several, we now keep only one; this one being Page's Perfect Poultry Food—the acknowledged leader in Poultry Foods."

## PLAN OPPOSED.

Hearing on Use of Austine Legacy Saturday.

Brattleboro, Nov. 13.—The determination of James F. Hooker, chairman of Brattleboro's board of selectmen, to prevent the establishment of a tuberculosis sanitarium in Brattleboro out of funds bequeathed to the town by Col. William Austine, brought about a hearing Saturday before Judge E. L. Waterman in the probate court on the question to whom the legacy should be paid. Col. Austine died in September, 1904, and left \$50,000 to the town of Brattleboro in trust for the establishment of a hospital and named Dr. George F. Gale, Dr. A. L. Miller, Dr. G. R. Anderson, Charles Miles, and George C. Averill trustees. The legislature, at its last session, incorporated the Austine sanitarium and the trustees announced their intention to establish an institution primarily for consumptive patients. Mr. Hooker demanded that the executor of the will pay the bequest into the town treasury, his purpose being to have it expended for a hospital for other than tuberculous patients. He contends that a tuberculosis hospital would be detrimental to the town.

At the hearing Saturday Congressman Kittredge Haskins, represented the town and Atty.-Gen. C. C. Fitts the trustees. Mr. Fitts argued that while the bequest was made to the town the trustees named in the will are entitled to receive it. Decision was reserved.
